„Our goal is to create the most environmentally friendly, efficient and easy to use carpet cleaning system the industry has seen thus far!“
Patrick Ladinig, CEO

WHAT OUR CUSTOMERS SAY

„All professional carpet cleaner know the 4 pieces of the cleaning pie: TACT or Time, Agitation, Chemical and Temperature. The CRB machine is the best agitation I've ever experienced in my 42 years in this industry. We used to provide wimpy agitation with Grandi Grooms or rotary scrubbers. The CRB is so much more thorough while at the same time being gentle and also removing a bunch of dry soil we could never have removed with our vacuums, truck mounts, rotary extractors, etc. We also use less water when rinsing carpets due to the excellent preconditioning. Customers appreciate the thorough pet hair and dander removal and the faster dry times. One of my techs said „This CRB is a Godsend!“ I agree! We now own 2 and are contemplating a big one for commercial.“
Steve L.

„What can I say. Great machine, great price, great company. I have used CRB machines before and this design is the BEST. It is easy to maneuver around on the floor, carpet or tile, and will dig out all of that ‚nasty‘ stuff hidden below the surface. I use it to clean with encapsulation and dry compound. Back when I had a truckmount, I have used a CRB of the same design to agitate the pre-spray before Hot Water Extraction (HWE). The CCI machine does an outstanding job of all of these tasks. If you don't have one, just get it and thank me later.“
Scott M.

„I love the CCI Machine! Very good quality and versatile. I use it as a stand alone for encap cleaning, pile lifter, vacuum and agitator.“
Melvin A.

„We got the CRB last week, and it has far exceeded my expectations. Usually we clean mostly with op machines. I planned on using the crb just for easy jobs, but we tried it on some super nasty jobs and i was blown away. It can clean things i never thought that it would be able to. I highly recommend this machine!“
Daniel M.

CARPET CLEANER

Carpet Cleaner Industries is the manufacturer of the world's best dry and low moisture carpet cleaning system. Our flagship component is the original "Austrian Made" counter rotating brush machine (CRB) that has become the gold standard of CRBs. These machines have redefined existing procedures within the carpet cleaning industry over the last twenty five years. Our original "Renovator" catch tray concept further innovated an already well developed machine to set the bar even higher. Along with machines, we manufacture encapsulation solutions, spotters, as well as one of the world's best dry carpet cleaning compound.

Endorsed and approved by major carpet manufacturers, our system is listed on the Carpet & Rug Institute's (CRI) list of approved deep clean systems. Our dry carpet cleaning compound is lab certified to be 99.9% organic and Woosafe approved. Our products are private labelled by some of the cleaning industries largest cleaning entities.
